

	Remember	Understand	Apply	Analyse	Create	Evaluate
Language	Tell a friend or family member the story of 'Around the World in 80 Days'.	Categorise the countries that Phileas Fogg visits into their continents.	Create a travel brochure for a country of your choice.	Write a diary entry explaining what it feels like to experience an earthquake.	Imagine you are in the Amazon rainforest. Write a letter home about your experiences.	Explain which country you think would be the most dangerous to travel through, and why.
Logic	Find out how long it takes to travel from the UK to Rio De Janeiro using different modes of transport.	Research and compare different earthquake statistics from around the world.	Create a poster that compares 4 different climates, eg. Desert, arctic, jungle, mountainous etc.	Design a survey to find out about your friends' and family's travel experiences.	Use your data from your survey to create charts and graphs to present your results in an interesting way.	Compare and contrast key data figures for 4 different countries, eg. Rainfall, population, size, temperature etc.
Visual	Find the 7 continents on a world map and list them in order of size.	On a world map, track Phileas Fogg's travels around the world.	Design a new front cover for 'Around the World in 80 Days'.	Create a 'South America' themed collage.	Create a model volcano, or earthquake simulator.	Design and show on a map the route that you would take around the world, explaining why.
