

Year 1 Takeaway Homework

Choose your homework from the menu below:

The castle-ometer suggests the difficulty or challenge the homework may offer.

- You should hand work one piece of work in every week (by Thursday)
- This term you should attempt at least one 'Top Turret' task, you can have 2 weeks for this
- You may choose the same task twice as long as it is on a different aspect of the topic

Top Turret!

**Second
Floor**

**First
Floor**

**Ground
Floor**

Create a map of your route to school. Mark your house, our school and other key buildings or features.	Research the materials that have been used to build houses. Pick two time periods and research why those materials were used.	Design your own castle/house (any kind). How big would it be? How many people would live in it? What would it be made of? Etc.
Compare two different types of house (e.g. flat, caravan, detached, houseboat) in writing and pictures.	Create an information sheet about castles and why they made good homes.	Research the types of people that would have lived in castles and the different jobs that they did. Bring in your discoveries.
Write a description of your house (thinking about how old it is, what it is made of, what it looks like, what type of house it is, how many rooms it has etc.)	Look into how houses have changed over the years. Compare an old house and a new one - how can you tell that they are old or new? (You could take photos, draw pictures or diagrams with labels.)	Design your perfect room. If you could have anything in your room what would it be?
Create a poster showing something you have learnt recently in our topic lessons.	Make a list of the 10 most important things you might find in a home.	Draw and label a picture linked to our topic.
