

Crowmarsh Playground and Gym Update –

Letters of support requested

Planning Approved

We are pleased to report we now have planning approval for the play area upgrade and addition of a gym area.

For those who missed seeing the plans, please refer to the Parish Council web site www.crowmarshgifford.org.uk and look under Facilities/Crowmarsh Playground Proposal at the top. Some of the drawings and images are currently on display in the school hall, they will stay up for two weeks after the half term break. There will also be a display during the Coffee morning at Crowmarsh Village Hall on Saturday 10th February 10.00 till 12.00.

Please note the design has considered requests for equipment made in our previous survey in spring last year, which had 215 people supporting the principle of a new improved playground and 126 supporting the gym.

Grant Applications

We need external funding for this project to be realised, which the Parish Council will now be seeking through grant applications.

You can help us with the process with your written support of the proposed playground and or the gym.

To help secure external funding we would like to provide further evidence to potential funders that local people support the proposed design and equipment. This means we need you to send letters or e-mails to us (The Parish Council) supporting the new play area and gym, specifically making reference to the design features and which aspects will be most beneficial to you and your family. Please include your name. Where applicable please include comments / quotes from the children (noting their ages) who would benefit from these improvements.

Written support will be collated by Michelle Reynolds. Letters can be sent into school addressed to Michelle. Alternatively, e-mails can be sent to michelle.a.reynolds@hotmail.com. These responses will be collated and submitted as part of our grant applications.

Expressing your personal support could make the difference in securing the necessary funds for this great project to be realised.

Many thanks, in anticipation.

Crowmarsh Parish Council

Below is a plan and some images of the proposal, for these and further images, including of the pieces of equipment please see the Crowmarsh Parish Council web site noted above.
