

Year 6 Maths Medium Term Plan Summer 2019

Summer Term 1 and 2	
Summer Term 1	Summer Term 2
• Accurately construct polygons using protractors and rulers • Basic geometry of circles • Reading pie charts involving percentages • Interpret line graphs • Mean average of data Wider investigations involving measures, scale and representations such as accurate mapping.	• Deeper investigations involving survey, data collection and handling, concluding and generalisation • Year 7 transition work. This involves many of the same concepts as covered in Year 6 but taking a broader look, discovering other techniques and avenues for investigation • Broader look at algebra – linear equations
